Director - A multimedia, technical and documentation club in Kinabalu Residential College, University of Malaya.

PROJECTS INVOLVED

Fitweet: Arduino-based Smart Watch for Early Anticipatory Anxiety Notification System (03/2021 - 02/2022)

- Developed a Django web application for managing information of Tweets analysis, body vital signs, notification, mental health-related mobile app recommendations, mental health chat support and Arduino smart watch users as part of my Final Year Project (FYP).
- Received multiple accolades including Gold Medal Winner (Young Ideation Category)
 for International Digital Innovation in Wellness (DInoWEx2021): Enhancing Quality of Life
 through Technology and Champion (IET Innovation Award) & Second Runner Up
 (Young Innovator Award) for 2021 IEEE Malaysia Final Year Project (FYP) Competition.
- Deployed web application link: fitweet.tech

GOCery Mobile Application (10/2021 - 02/2022)

- An Android native mobile application for managing grocery purchases including receipt OCR, expenses tracker, card/voucher and route planning management.
- Developed using Android Studio with integration of Firebase Realtime Database & Cloud Storage, Google's ML Kit for Text Recognition and Places API.
- For my team's submission to the WIX3004 Mobile Application Development group assignment for Semester 1, 2021/2022 session.

Asymptomatic COVID-19 Digital Solution: A Proof of Concept Study (CODIQ-My) (10/2020 - 02/2021)

- Developed a **Django web application** prototype with integration of **Microsoft Azure** cloud services, Internet of Medical Things (IOMT) and artificial intelligence to provide doctors with real-time information on the health status of home-quarantined patients, enabling doctors to provide fast and targeted treatment plans.
- In collaboration with the Institute of Clinical Research (ICR) together with local and international collaborators to assist the Ministry Of Health, Malaysia (KKM)'s efforts in managing the COVID-19 pandemic.
- See the New Straits Times article regarding the project: https://www.nst.com.my/news/nation/2021/08/719321/codiq-my-real-help-fight-against-covid-19-says-health-dg
- Deployed web application link: http://43.252.233.28

FCSIT UM Survey Web Application (12/2020)

- A simple web application built using Django and Bootstrap stack to compile all FCSIT survey forms for faculty courses for usage of FCSIT UM undergraduate students only.
- Developed and deployed in less than half a day in the middle of my internship.
- Deployed web application link: fcsit-survey-app.herokuapp.com

Createz Bootcamp 3.0 (11/2019 - 03/2020)

- Led the project as Vice Director.
- First Adobe AI, AE and XD workshop to be fully organised by students in a college project (KinaWorks) in Universiti Malaya.
